

## MOHAMMAD AKMAL NAWABI

**OBJECTIVE** I'm a full stack web developer. I was intern in Milestone technologies institute for one year and during this internship I become a real programmer. I'm a motivated person and always think about that how to improve my programming skill, I'm always in coding and fixing errors and bugs in my coding. I'm student at Kabul university in computer science faculty and my career is in progress right now. My big wish is to become a top developer in the future and work in well-known companies such as Amazon, Microsoft, Apple, Google and soon.
